

Safety Data Sheet of **HD PLA** in accordance with 29 CFR 1910.1200:2012, ANSI Z400.1-2010, and ISO 11014-1: 2009.

Date: 12/07/2017

1. CHEMICAL PRODUCT & COMPANY IDENTIFICATION

PRODUCT NAME: HD PLA filament

TRADE NAME AND SYNONYMS: Fiberlogy HD PLA filament

CHEMICAL FAMILY: PLA Biopolymer

COMPANY NAME: FIBERLAB S.A.

ADDRESS: Brzezie 387, 32-014 Brzezie, Poland

TELEPHONE: +48 731 400 201
EMAIL: office@fiberlogy.com

2. COMPOSITION / INFORMATION ON INGREDIENTS

CHEMICAL NAME AND CAS	WEIGHT %	osha exposure Limits	ACGIH EXPOSURE LIMITS:
Polylactide resin; 9051-89-2	>98	None	None
Pigment; n/a	<2	None	None

OTHER STANDARDS: This material can generate Particulates Not Otherwise Classifiable (PNOC). The Occupational Safety and Health Administration (OSHA) PEL/TWA for PNOC is 15 mg/m3 for total dust and 5mg/m3 for the respirable fraction. The American Conference of Governmental Industrial Hygienists (ACGIH) TLV/TWA for PNOC is 10 mg/m3 for inhalable particulates and 3 mg/m3 for respirable particulates.

3. HAZARD IDENTIFICATION

3.1 CLASSIFICATION:

This product is NOT classified according to 29 CFR 1910.1200 Hazard Communication Standard 2012

3.2 HAZARD STATEMENT:

None

3.3 PRECAUTIONARY STATEMENT:

None

3.4 SPECIAL ADVICE ON HAZARDS:

Danger of burns in contact with hot polymer. Hazardous vapours in case of burning.

3.5 OTHER HAZARDS:

If small particles are generated during further processing, handling, or by other means, combustible dust concentrations in air may form.

4. FIRST AID MEASURES

<u>Eye contact:</u> Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Call a physician immediately.

Skin contact: In case of contact with molten polymer immediately cool the skin with cold water.

Medical aid may be required to remove adhering material and for treatment of burns.

Inhalation: Move to fresh air. Call a physician immediately.

<u>Ingestion:</u> Drink water as a precaution. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Call a physician immediately.

Notes to physician: Treat symptomatically.

5. FIRE FIGHTING MEASURES

5.1 FLAMMABILITY:

Autoignition temperature: 388 °C

5.2 FLAMMABILITY LIMITS IN AIR:

Flammable limits in air (%): Not applicable

5.3 SUITABLE EXTINGUISHING MEDIA:

Foam, Water, Carbon dioxide (CO2), Dry chemical, Alcohol resistant foams are preferred if available. General-purpose synthetic foams (including AFFF) or protein foams may function, but much less effectively.

5.4 SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

5.5 UNDER FIRE CONDITIONS:

Cool containers / tanks with water spray. Water mist may be used to cool closed containers. Fine dust dispersed in air may ignite. Risks of ignition followed by flame propagation or secondary explosions shall be prevented by avoiding accumulation of dust, e.g. on floors and ledges.

6. ACCIDENTAL RELEASE MEASURES

6.1 PERSONAL PRECAUTIONS:

Use personal protective equipment. Avoid contact with skin and eyes. Avoid dust formation. Remove all sources of ignition.

6.2 ENVIRONMENTAL PRECAUTIONS:

Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system.

6.3 METHODS FOR CLEANING UP:

Clean up promptly by scoop. Sweep up and shovel into suitable containers for disposal.

7. STORAGE AND HANDLING

7.1 SAFE HANDLING ADVICE:

Use personal protective equipment. Avoid contact with skin and eyes. Low hazard for usual industrial or commercial handling. Users should be protected from the possibility of contact with molten material during fabrication. Avoid dust formation. If small particles are generated during further processing, handling, or by other means, combustible dust concentrations in air may form.

7.2 STORAGE:

Store at temperatures not exceeding 50 °C/ 122 °F. Keep cool. No special restrictions on storage with other products.

7.3 PRECAUTIONS:

No special precautions required.

8. EXPOSURE CONTROL & PERSONAL PROTECTION

8.1 EXPOSURE CONTROL

<u>Engineering Measures:</u> Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. Provide appropriate exhaust ventilation at places where dust is formed.

Exposure limits: None established. This material can generate Particulates Not Otherwise Classifiable (PNOC). The Occupational Safety and Health Administration (OSHA) PEL/TWA for PNOC is 15 mg/m3 for total dust and 5 mg/m3 for the respirable fraction. The American Conference of Governmental Industrial Hygienists (ACGIH) TLV/TWA for PNOC is 10mg/m3 for inhalable particulates and 3mg/m3 for respirable particulates.

8.2 PERSONAL PROTECTIVE EQUIPMENT

Eye protection: Safety glasses with side-shields. Goggles.

Skin and body protection: Impervious clothing.

Respiratory protection: Respirator must be worn if exposed to dust. Wear respirator with dust filter. Respiratory protection is needed if any of the exposure limits in Section 3 are exceeded. Consult an industrial hygiene professional prior to respirator selection and use. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.

Warning: Air purifying respirators do not protect users in oxygen-deficient atmospheres.

Hand protection: Preventive skin protection.

Hygiene measures: Avoid contact with skin, eyes and clothing.

<u>Special hazard</u>: Users should be protected from the possibility of contact with molten material during fabrication.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Solid Appearance: filament

Odor: Sweet

pH: Not applicable

Vapor Pressure: Not determined Vapor Density: Not determined Evaporation Rate: Not determined

Density: 1.24

Decomposition Temperature: 250°C

Boiling Point / Boiling Range: Not applicable Melting Point / Melting Range: 165°C - 180°C Tg (Glass Transition Temperature): 55°C - 60°C

Autoignition Temperature: 388°C

Water Solubility: Insoluble

Solubility In Other Solvents: Not determined

10. STABILITY AND REACTIVITY

10.1 REACTIVITY:

None expected under conditions of normal use.

10.2 CHEMICAL STABILITY:

Stable under recommended storage conditions.

10. 3 CONDITIONS TO AVOID:

Temperatures above 230 °C. Avoid keeping resin molten for excessive periods of time at elevated temperatures. Prolonged exposure will cause polymer degradation

10.4 MATERIALS TO AVOID:

Oxidizing agents, Strong bases Hazardous decomposition products: Burning produces obnoxious and toxic fumes, Aldehydes, Carbon monoxide (CO), carbon dioxide (CO2)

10.5 POSSIBILITY OF HAZARDOUS REACTIONS:

None expected under conditions of normal use

11. TOXICOLOGICAL INFORMATION

11.1 PRINCIPLE ROUTES OF EXPOSURE:

Eye contact, Skin contact, Inhalation, Ingestion.

ACUTE TOXICITY: There were no target organ effects noted following ingestion or dermal exposure in animal studies.

11.2 LOCAL EFFECTS:

Product dust may be irritating to eyes, skin and respiratory system. Resin particles, like other inert materials, are mechanically irritating to eyes. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

11.3 SPECIFIC EFFECTS:

May cause skin irritation and/or dermatitis. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough. Burning produces irritant fumes. Long term toxicity did not cause skin allergic reactions in skin sensitization studies using guinea pigs.

11.4 MUTAGENIC EFFECTS:

Not mutagenic in AMES Test.

11.5 REPRODUCTIVE TOXICITY:

No data is available on the product itself.

11.6 CARCINOGENIC EFFECTS:

None of the components of this product are listed as carcinogens by IARC, NTP, or OSHA.

11.7 TARGET ORGAN EFFECTS:

There were no target organ effects noted following ingestion or dermal exposure in animal studies.

11.8 SKIN:

LD50/dermal/rabbit > 2000 mg/kg

11.9 INGESTION:

LD50/oral/ rat > 5000 mg/kg

12. ECOLOGICAL INFORMATION

12.1 ECOTOXICITY EFFECTS:

EC50/72h/algae > 1100 mg/L

12.2 PERSISTENCE AND DEGRADABILITY:

Inherently biodegradable under industrial composting conditions

12.3 BIOACCUMULATION:

Not expected to bioconcentrate or bioaccumulate.

12.4 MOBILITY:

No data available

None

13. DISPOSAL CONSIDERATIONS

13.1 WASTE FROM RESIDUES / UNUSED PRODUCTS:

In accordance with local and national regulations (i.e. EU91/15/CEE, EU 91/689/CEE, EU 94/62/CEE and following). Should not be released into the environment. Do not contaminate ponds, waterways or ditches with chemical or used container.

The company has no control over the management practices or manufacturing processes of parties handling or using this material. the information presented here pertains only to the product as shipped in its intended condition.

14.1 PROPER SHIPPING NAME: Not applicable. 14.2 HAZARDOUS CLASSIFICATION: Not DOT regulated. 14.3 IDENTIFICATION NUMBER: Not available 14.4 REPORTABLE QUANTITY: None 14.5 IMCO CLASS (International Travel): Not-regulated) 14.6 ADDITIONAL LABELING:

15. REGULATORY INFORMATION

EU regulations: This product dose not require a hazard warning label in accordance with EC Directives.

16. OTHER INFORMATION

16.1 USER RESPONSIBILITY/DISCLAIMER OF LIABILITY

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. Information contained herein is believed to betrue and accurate but all statements or suggestions are made without warranty, expressed or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with all applicable federal, state and local laws and local regulations remains as the responsibility of the user. This bulletin cannot cover all possible situations which the user may experience during processing. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or customers. It is your responsibility to develop appropriate work practice guidelines and employee instructional programs for your operation.

The information is provided as a way of a guide to the use of our product and is correct to the best of our knowledge. However, neither Fiberlab S.A. nor its subsidiaries can offer any guarantee as to its accuracy or exhaustiveness. All chemicals may present unforeseen risks and should be used with caution. We can not guarantee that the risks referred to above are the only risks present. The final choice of the application of a product is thus the sole responsibility of the user.
